

SHAPAKA ANDREAS

Creative Technologist

+264 81 773 5303

shapakaa3@gmail.com

I transform raw data into actionable insights, empowering businesses to make data-driven decisions that drive success. I am passionate about uncovering trends, identifying patterns, and translating complex data sets into clear and concise visualizations. I combine technical expertise with strong communication skills to bridge the gap between data and business needs.

WORK EXPERIENCE

TVI Business Services /Lead Developer August 2025 – September 2025

Served as the liaison between clients, the development team, and management to ensure clear communication and successful project delivery. Applied **Agile practices** to coordinate website development and ensure high-quality, client-satisfactory outcomes.

AI SOD Institute /Software Developer with AI March 2025 – July 2025

Independently developed and deployed multiple client-facing websites to streamline daily operations, automate invoice processing, and enhance overall efficiency across the organization.
